Prior Education

Bocconi University *2015-2017*
M.Sc. in Economic and Social Sciences (ESS), *cum laude*

Bocconi University *2012-2015*
B.Sc. in International Economics, Management and Finance (BIEMF), *cum laude*

University of Pennsylvania, Wharton School *2015*
Visiting student

Fields

PRIMARY Macroeconomics, Firm Dynamics
SECONDARY International Trade

Job Market Paper

“Stellar Skills: Superstar Firms and the Specialization of Human Capital.” 2025. *(Presented at Princeton University, Federal Reserve Bank of New York)*

This paper studies how market power in technology-specific capital shapes specialization by firms and workers across technologies. I develop a tractable general equilibrium model where firms’ technology adoption and workers’ skill acquisition decisions are jointly determined and influenced by imperfectly competitive capital markets. Dominant capital providers can subsidize training in the skills needed to operate their type of capital to expand the supply of specific labor faced by firms adopting the linked technology. By steering technological specialization in their favor, capital providers further reinforce their market power. I provide sufficient conditions to represent the equilibrium as a nested fixed point and characterize the incentives of capital providers to invest in training. The theory shows that reduced competition among capital providers is linked to higher markups on technology-specific capital but also stronger incentives to subsidize specialized training. I calibrate the model to the case study of providers of cloud computing power and specialized software skills, treating the open source release of platform-specific software as a subsidy to the cost of acquiring platform-specific skills. Using large-scale job posting microdata and surveys of software developers, I show that the release of specific software is associated with increased adoption of the linked platform and a lowered wage premium for the associated specialized skills. Policy counterfactuals show that a planner combining antitrust policy with targeted training subsidies can decentralize the first-best specialization pattern. However, relying only on antitrust regulation results in greater concentration in technology-specific capital markets to preserve private incentives to invest in specialized training. The results quantify a novel trade-off between allocative distortions from market power and gains from specialization in productive technologies.

Working Papers

1. “Market Entry and Plant Location in Multiproduct Firms.” With Juanma Castro-Vincenzi, Eduardo Morales and Alejandro Sabal. 2024.
2. “Risk-based Organizational Choices.” 2021. *(Third year paper, presented at Princeton University)*

Selected Work in Progress

1. “Product and Labor Market Power: Evidence from Firm-to-Firm Networks.” With Chiara Motta. 2025. *(Presented at Princeton University)*

Research Experience

2022	Research Assistant to Prof. G. Violante, Princeton
2021	Research Assistant to Prof. S. Redding, Princeton
2020	Research Assistant to Prof. E. Morales, Princeton
2018-2019	Research Assistant to Prof. G. Ottaviano and T. Monacelli, Bocconi

2018 Research Assistant to L. Laeven and O. Tristani, European Central Bank
 2016, 2017 Visiting Student, I. Gasparini Institute of Economic Research, Bocconi

Professional Experience

2025 Federal Reserve Bank of New York (Summer PhD Fellow)
 2022, 2023 Balyasny Asset Management (Research Consultant)
 2021 Bank of Italy, Rome (Summer Intern)
 2018 DG Research at European Central Bank, Frankfurt (Trainee)
 2016 Pharo Management, London (Summer Research Analyst)

Other experience

2024 Princeton Women Talks (Organizer)
 2013, 2014 Bocconi Students for Microfinance (President)

Teaching

Princeton ECO 301: Intermediate Macroeconomics (TA, 2022-2024)
 ECO ESS: Economics Statistical Services Lab (Data Science Consultant, 2022-2024)
Bocconi ECO 30030: Macroeconomics and Economic Policy (TA, 2018)

Honors, Scholarships, Fellowships, and Grants

Louis A. Simpson Center Data Purchase Grant, Princeton University	2025
International Economics Section Data Purchase Grant, Princeton University	2024
International Economics Section Summer Fellowship, Princeton University	2020-2024
Graduate Economics Fellowship, Princeton University	2019-2025
Bonaldo Stringher Scholarship (Ph.D. full tuition waiver), Bank of Italy	2019, 2020
Graduate Merit Award (M.Sc. full tuition waiver), Bocconi University	2017, 2018

Personal

Citizenship: Italian
 Languages: Italian (native), English (fluent), French (intermediate), Spanish (intermediate)
